

Please let us know what we are doing well. 15 responses

The upper management

my child is still in this school too short to be able to comment on this

Everything

My child is supported in school and I am kept well informed of upcoming events

The teachers are friendly and are able to communicate with them. keep it up.

everything is well with me for now

Notifying parents with everything that going on in school when it comes to learning, events, disco, concerts and other.

Everything that includes learning. Contact with parents about any events, parties and other. After school clubs for our kids and lots of other things.

Emaleigh is doing really well and flourishing at the school

Keeping my child interested in learning new things

Great I do not have many concerns other than my child teacher leaving which made me a little worried my child wouldn't do as well or feel as comfortable in school but she's seems okay so far but there is sometime confusion with what is going on in the class as there is not that many uploads to the dojo

Somethings

Very good at responding to and resolving parents concerns. My child is a fussy eater yet does well when eating the school dinners. Anytime there has been an accident, illness or injury the school always provide a bump note or contact the parent

It's ok

Helping my child to read

Please let us know what we can improve and get better at.

Can't think of anything at the moment.

Discipline, communication with parents, dealing with children who are either send, intelligent or misbehaving. We would like for all our adults to come into school and discuss any concerns. We are inclusive and take pride in ensuring all children have adaptive teaching as well as bespoke to need. All messages are shared via class dojo – please make sure that you have signed up to the app.

my child is still in this school too short to be able to comment on this

Breakfast clubs - There has not been a need for this service due to most of our families having arranged wrap around care near to their work setting.

I would prefer more correspondence to be sent home via letter as well as email -We have been a paper less school for over 2 years – we do stipulate that we can provide a paper copy on request. Please let your child's class teacher know if you need a paper copy or contact the school office.

Am ok with it

nothing that I can notice at the moment

N/a

After school clubs' options and have them run year-round We have after school activities running throughout the year. Please look out for the letters and the messages sent through, text, Dojo and school App.

I feel as though communication could be a little better, sometimes information on dojo is different to information what has been send by text which can be difficult and confusing at times e.g the school timetable said the children started school on the 5th but we had text to say the 7th and to follow the timetable, which was very confusing until we had text to say it was definitely the 7th this was very confusing as I suffer with adhd. This has made me feel very confused a lot of the time with what is going on at school as this happens often. We now communicate via text, email, school App, Class Dojo

and telephone. We put key dates on the website. If you require a paper copy of anything, then please let us know.

Everything!! The school is awful We are sorry to hear that you are not happy with our school process and offer – please can we advise you make an appointment to see the

Putting up posts about the school holidays and break up times for half terms at least 2 weeks before due to start This is now updated on the website calendar. Please keep checking. Also, we have half termly dates sent out on class Dojo. Please make sure you have signed up to Dojo.

It's ok

More communication from the teacher regarding day to day activities my child is doing ie photos This is now on Dojo (Please make sure that you have the login and downloaded the app to receive the messages)
