

Pictogram Worksheet 2

1. Use the information below to complete a pictogram showing the amount of oranges picked by each class. Use the key shown.

Class	Tally
1	
2	
3	
4	
5	
6	

Class	Oranges
1	
2	
3	
4	
5	
6	

- Class 3 picked twice as many as class 1
- Class 5 picked 5 less than class 4
- Class 6 picked half the amount class 2 picked

2. Using the data from the pictogram answer the questions below.

- Which class picked the least amount of oranges? _____
- How many more oranges did Class 2 pick than Class 1? _____
- How many oranges were picked in total? _____
- What other questions could you ask about the pictogram?

- Boris says that Class 1 and Class 5 have picked 20 oranges each. Is he correct? _____
- If Boris is wrong, then what mistake has he made? _____
