

## English

The fiction text in which we will be exploring is The Incredible Book Eating Boy by Oliver Jeffers. We will begin to explore more grammar features such as conjunctions and adverbials.

The non-fiction unit will be focussed on creating our very own cooking show! We will write our own set of instructions and use this to create a final product to show to parents!

## Science

We will explore Rocks and Soil. We will explore a variety of different types of rocks and understand the components of soil through investigations and experiments.

## Design Technology (DT)

Our topic this term is focussed on Eating Seasonally. We will be exploring where and when foods grow and how foods can be used in recipes.

## Junior Jam

PE: Multi sports

Music: Class jam

Computing: Electronic music making

# Villages, Towns and Cities

## Rationale, Hook and Final Celebration:

### **Rationale:**

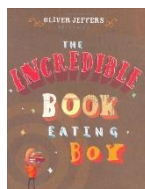

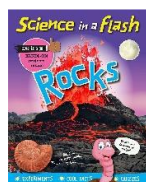

We are exploring villages, towns and cities because it will give children the understanding of the different aspects of each one and learn about the unique characteristics of them. This is important as they compare these to different villages, towns and cities across the world later in the year.

**Hook:** We will begin our learning through visiting Bulwell and Nottingham in person to understand their different features as well as taking a virtual tour of villages in the UK.

### **Final Celebrations:**

We will be celebrating our learning through creating an information guide about villages, towns and cities.

## Texts

## Snap Wood PRIDE and the World (PSHE)

Throughout this term we will be focussing on the topic 'Me and My Relationships'. We will explore how we form healthy relationships with other people in our lives, and how to look after one another. This links in with our PRIDE values to Respect (as we learn to respect one another) and Empathy (through caring for and building strong, positive relationships with a variety of people within our lives).

## Maths

We follow the White Rose Scheme. This term, we will be covering place value and addition and subtraction. We will begin to understand 3-digit numbers up to 1000. Some of our objectives are to:

- Partition, compare and order numbers to 1000.
- To add and subtract 3-digit numbers.

## Physical Education (PE)

Within PE we will be practicing our gymnastics skills.

## Religious Education (RE)

The theme this term is Beliefs and Questions. This will be centred around Christianity and explore celebrations such as Christmas, Easter and Harvest.

## Geography

Within our Geography lessons, we will be exploring villages, towns and cities. They will learn about what makes each one unique and what the differences between them now.
