

English

The fiction text we will be exploring this term is based around the story 'Star in the Jar' by Sam Hay. Within this, we will work on grammar features such as adverbials, conjunctions and dialogue.

Our non-fiction writing will be focussed on producing a non-chronological report. In this, we will explore the differences in layout and structure to a fiction text.

Science

Within science, we will be learning about animals, including humans. We will explore food groups and look at the muscles and skeletons within the human body.

DT

The aim within DT is to produce a digital charm through the use of computers called micro:bit. We will be writing instructions for the computer to follow.

Junior Jam

PE: Basketball

Music: Electric Drums

Computing: iOffice

Mountains, Volcanoes and Earthquakes

Rationale, Hook and Final Celebration:

Rationale:

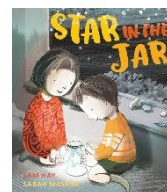

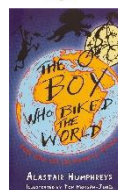

We will be exploring mountains, volcanoes and earthquakes because it is important for us to understand the natural disasters that can occur within our world and the impact that they have. This will also develop our understanding of the structure of the Earth and the physical features of the planet that we live on.

Hook: We will begin our learning by creating our own models of the structure of the Earth!

Final Celebrations:

We will be celebrating our learning through an afternoon sharing with parents.

Texts

Snape Wood PRIDE and the World (PSHE)

Children will be focussing on the PRIDE values of Respect, Inquisitiveness and Empathy.

Within PSHE, our lessons will be focussed around the topic of 'Keeping Myself Safe'.

Within this, we will be exploring how to assess and manage risky situations both in person and online. We will also begin to introduce basic facts about the risks of alcohol and cigarettes within society. These lessons will support children in ensuring that they can assess situations and understand what to do to keep themselves safe.

Maths

We follow the White Rose Scheme. This term, we will be continuing multiplication and division but building up to multiplying 2-digit numbers by 1-digit numbers.

We will also begin our length and perimeter topic.

- To multiply 2-digit by 1-digit numbers.
- To measure in mm, cm and m.

Physical Education (PE)

Our sport this term is gymnastics, in which we will learn how to perform moves safely.

Religious Education (RE)

The theme this term is Religion, Family and Community and will link into Christianity and Islam.

Geography

Within this unit, we will begin by understanding the structure of the earth. We will explore how mountains, volcanoes and earthquakes are formed and how they occur. Throughout our learning we will also reference case studies, to understand how these events impact in the real world.
